

Equine Guelph

"Please forward this to a fellow horse lover!"

April 2009

Equine Guelph's Education Program – Upcoming Opportunities

Online Courses – May 11 to August 2, 2009

Equine Event Management - NEW!

Organizing a successful equine event is key for working within this industry, during this course you will have an opportunity to plan, host and evaluate your event.

Equine Genetics -

The horse population is growing and becoming more competitive, during this course you will be introduced to many of the important concepts of equine genetics, including practical and required information to ensure a safe and healthy environment for horses.

Functional Anatomy -

The ability of the horse to move and achieve such a variety of athletic feats is fascinating to watch, learn how the horse does this by examining the components of the systems that enable these athletic achievements.

Health and Disease Prevention -

Preventing disease and health problems should be the goal of every horseowner, during this course you learn to maintain optimal health by developing a year-round health maintenance program.

Equine Behaviour -

While horses may not be able to speak our language, horses do have a language of their own. It is important for those caring for horses to learn their language to reduce risks and increase quality of care. **(note: course is full)**

Groom One Online – June 1 to September 27, 2009

This online course is designed for newcomers to the horse industry who wish to become competent, employable grooms at either a racetrack or a training facility.

Workshops– April 18, 2009

Guided Tour of Equine Anatomy -

During this workshop you will investigate the systems and regions of the horse methodically to understand their natural form and function, and some of the good and bad effects of human interaction.
